

GOVERNMENT HOUSE,
OTTAWA.

27 Oct. 1879.

Dear Principal Dawson.

I cannot say how grateful I am to you for the most valuable collection you have been so good as to send home of the writings of yourself and your son.

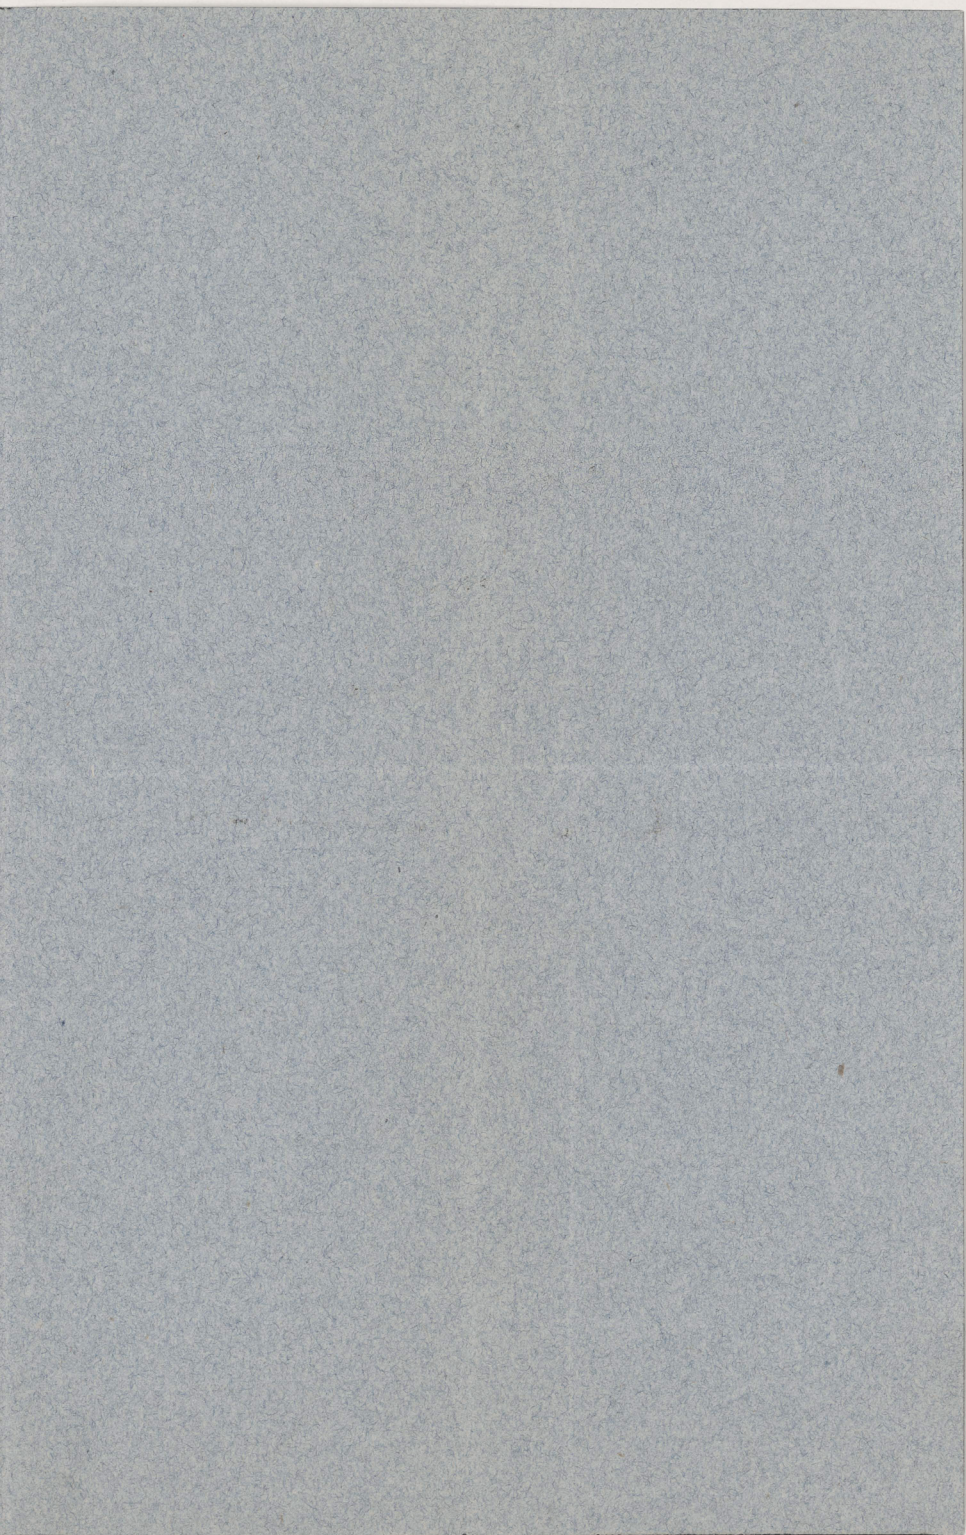

I have sent them off to be bound in separate sets, and have been much interested in

reading your nice last reports
from British Columbia in the
volume just issued of the
Organ of the Geological Survey.

This is a most enviable
profession, and what a range there
is in this country for its pursuit!

Believe me, with many thanks

Yours very sincerely
L. Otley
