

Pimwoc
Pictou 5th Nov. 1879

My dear Sir

I have just rec. the following from Mr Crawford

"If you are still able to
"Control the Iron Areas you came
"here to sell last winter I think
"something might now be done
"with them and I shall be
"glad to have a line from you
"on the subject"

I enclose copy of my
reply and wish in addition
to say to you that we should
be glad to serve the interests of
our friends in Montreal in
the matter if they are desirous
of getting hold of the Limonite
which McDonald & his Associ-
ates Control -

Primer
Peter's Nov. 1877

Richard Dawson

Mr, Mrs, have no interest whatever in the matter
further than to act for the best in any way our
friends at Montpelier may desire.

I hope you are all well and
that George has returned home safe and well
so that you will be all together again. Our
circle here is sadly broken. My brother's wife and
sister have had on account of poor health to
seek, except the matter, a warmer climate for the
winter and my brother, Alexander, is now in Italy for
his medical office, as a clerk. I learn a
number of mercantile affairs.
with kind regards to you all

There are four others now
interested with him in the
properties which he empowers
me to offer our friends at Mont-
real this spring and I think
it not unlikely that the offer
then made could be renewed
now altho I have no grounds
for saying so further than
that I feel I might be able
to influence the holders to
do so but in this I might be
disappointed.

If Crawford is dealing
for other parties and our friends
are indifferent about it I
suppose there would be no
harm in putting McDonald
in communication with
Crawford to effect a sale if he can
