

Kiel, Prussia,
Jan. 26th 1880

Dear Sir,

Accept my thanks for
sending me your "Note
on recent controversies resp.
Eozoon canadense".

Be so kind to induce
Mr Weston to send me
slices of those specimens
of Eozoon, which you
think best fit to

show the round cross
sections with great
distinctness.

Yours
very truly

K. Möbius.

To Principal
J. W. Dawson
