

Kiel, March 11<sup>th</sup>, 1880

Dear Sir,

I thank you for sending  
me preparations of Eozoon.

I can not find in them  
any organic regularity, and  
therefore I can not change  
my published opinion  
in regard to Eozoon.

The slide preparation was  
broken coming in my hands.

The specimens of Poly-  
kema you have sent

me belong to the Species  
*Polytremia miniataeum* Pallas  
A little particle of it  
which I have ground down,  
has a more regular structure  
than I have figured in my  
Eozoon Paper.

I send you back your  
preparations and the pieces  
of *Polytremia*. Do you wish  
also the photograph of  
Eozoon kindly sent me? <sup>?</sup>

Yours  
very truly

K. Möbius.

March 18th 1877

Dear Sir

I have the pleasure to inform you that  
the same has been forwarded to you  
and will be ready for you in a few days  
I am, Sir, very respectfully,  
Your obedient servant,  
J. H. [Name]
