My Dear Sir.

Mr Henry Blanchard
L.C. will be in Montreal
next week and likely call
to see you. He has a son
at the High School in Whiting
Art. It had been his
intention to send him to
Toronto University, but I have
been playing the part of an
advocate for my Alma Mater.
He wants his son to take a
Course in Arts and Law.
He said that if it were not
for the moral influence of
Harvard he would send him
there.

Could you get the Registrar
to send to our Library several
back years calendars with
the Examination papers.

I have the science papers
of Toronto University for
the last twenty - two years.

Also would you ask him to
send me the Calendar of
last year, that I may use
it, or give to anyone that
may want information with
regard to the Bill.

You have now three men
from the Coll. Inst. Hamilton,
that went last year, two
Messrs Reids, and Mr Hunter.

Mr Hunter is a very good
Speaker and eventually intends
to devote himself to law.

He is a very good Speaker and
debater, and as an advocate
I believe that he will become

Conspicuous.

At least, I have time, and
am now at my Geology
of the Western End of Lake Ontario
again.

It is too bad intruding
so frequently on your time,
but it may get one student
from Toronto for the bill.

I am

Your obedient servant
J. M. Wallace.
