Toronto 12
March 1880

My dear Principal

I received your letter at the beginning of our Legislative Session and its absorbing demands on my time prevented my answering it at once. I am quite alive to the considerations you mention, and shall do the full in your regard for Dr. Wilson; but the Minister of Education

Principal Dawson

and others are of
opinion that there
are various
matters to be weighed
before the appoint-
ment. You would
like to see us
decided to be the
best for the
university. Your
appointments
made for us she
see land, it will
be in need of
his papers
all the qualified
work needed
and not merely
those required

for a classical
Professor. Your
letter to me on
so important a
subject needs
no apology.

Yours sincerely
Anson
