Dear Sir!

J^r Dawson
Montreal

I thank you for the papers you have been
so kind to send me. In May I hope to be
able to send you the 2^d. Vol. and the 3rd
perhaps on the end of the year. All together
the Labyrinthodonts shall occupy about 60 Plates

It will be usefull if you wait with your
publication. because I am sure that you will
see entire skeletons figured in my work of several
genera of which you have only fragments.
