My dear Dr. Dawson,

Your note dated the 1st instant has lain at my office, in my absence from the city.

I have no special claims upon Mr. Andrew Allan nor are my relations to him such as to warrant me in making a suggestion to him unless, accident placed it in my way to do so in a manner which could not possibly, if the

suggestion did not prove agreeable, give offence.

In recently suggesting that W. Allan would be a suitable person to place upon the Board of Governors of the College I did so without his authority or indeed without any communication with him on the subject either directly or indirectly.

With kind regards

Believe me always
Yours very sincerely

J. M. Dickson
