My dear Dr Dawson

Just as I am leaving for home I am in receipt of your letter of the 28th inst. I wish you would arrive at no definite conclusion concerning the two Bills to which you allude until I can have an opportunity of seeing you. I have not the time at this moment to discuss the objections which you have to them.

I am going to spend a few days at home and after my return here I will write you further particulars concerning them.
