

by the N. E. Gorge.  
I have not read  
to the you stay &  
I wish you are not  
in case necessary  
also Mrs. P.  
Miss L. & others  
wishes to be sent  
and I am a little  
wiser. I did not  
understand the depth  
left but I will be  
proud to be here  
I believe - I did see  
Miss M. & Mrs. P. & others

After you reach this  
aerial height you certainly are  
well repaid by all that is desirable  
in change of air, of which there ab-  
-solutely lacks a breeze. The extensive  
and beautiful view of the river,  
which is more like a large lake with  
Kamouraska and the long chain of  
Villages up & down the river boundaries  
it, & a lovely view - on this side  
well, commanding the Point & the  
Murray Bay Village, in short its  
a very pleasant place with the  
advantage also of some inland  
our congratulations are another kind of way to

views & drives that always give  
an object for diversity. There is  
a Splendid Sulphur Spring only  
a mile from this house the pro-  
-portions of which would not yield  
in quality or abundance to  
the far famed Caledonia -  
The Children have been quite  
at home in finding all our  
found Johnson's Ticks as com-  
-pansions, so as a whole from  
the Elder to the Younger we all  
have found what suits us &  
therefore may well be satisfied.  
In writing to the day you

at first thought best for the  
Special Meeting of Incorporation  
if you had no objection to  
Wednesday the 5<sup>th</sup> instead of the  
5<sup>th</sup> you would insure some  
who return to Montreal on the  
6<sup>th</sup> & would be there to attend  
on Wednesday & might not on  
Monday - In your side of the  
River has decided advantages in  
express & in gross here we can  
only arrive Tuesday Wednesday  
Friday & Saturday & go away  
Wednesday Thursday & Saturday  
and it's the same as to send

MCGILL UNIVERSITY

post we only receive letters  
4 times & send them away  
4 times but with only 3 deliveries  
in Montreal from here. There is  
a Telegraph which in fact makes  
up for this. If you should be  
in Town, I mean Quebec, I should  
be very glad if you could see some  
of the papers that he, as to the Normal  
School Balance & the money due on  
Salaries, for as yet I have not heard  
of any official Cheques from the  
Education Office - I wrote to Mr.  
Prankridge to distribute my  
Cheques for Salaries & think that  
Montreal Bank will have no objection  
to cash them on the order last given
