

Religious Tract Society Green

2, St Pauls Close,

Clapham. S. W.

August 27. 1880

My dear Sir,

As I am spending  
a few days at home, I write from  
the above address instead of  
from Paternoster Row. Before  
this reaches you, I hope, you  
will have a copy of your Chain  
of Life - I will be pleased with  
its general appearance. I regret  
a little that the Society is obliged  
to charge rather more for it than  
usual with us in regard to books  
of such a size - Its price is 6/6  
But on the other hand, we are

sending copies of it pretty freely  
& scientific men of note - regarding  
it as much a part of our mission  
thus to appeal on behalf of Bible  
truth to the educated mind of our  
country as to give a penny tract  
to a poor hedge & ditcher. Should  
there be any men of mark before  
whom you could like the work  
to be brought in this way, we shall  
be exceedingly glad to forward  
copies -

The note, which I agree with  
you is unimportant, was not in time  
for the first impression, but shall  
be carefully kept for the second

Could we use it, mention, with  
advantage in the Leisure Hour?  
I will speak to D Macaulay about  
this - I am looking out for the  
dissertation which D Danhins  
is to give at Swansea this week  
on Man Puniceval -

With kind regards, I am  
Faithfully yours

Lam. G. Green
