ACC. NO. 2211
REF. 73/26

Mrs Meyer
Oct/86

Dear Dr. Dawson,

Dr. Dawson I dare say

has told you how averse I am
to any decided change being
made as to the conditions of
the "A. N. D. Prize" - Had the
rule been more stringent than
at present, we should for several
years ^{ago} had no prize awarded.
I will ask Miss Girdner to
prepare a paper for the next

But it is so regrettable length of a Province
at Summit the meetings, it will be well to write it
Behave me

Yours sincerely
Henry Wilson

Sept. 29th

his various opinions & interests at stake -
Very thoughtful to decide by his signature
number of marks would be simplified &
save endless annoyance - In fact I think
my change is the present system would
be not more convenient & simple - except perhaps
making inevitably 'understand to mean' ^{part} II &
not III & before done - A statement should be
to Smith for opinion on the Price Question

Gen. Com. meeting, giving the
respective merits of each prize
Student, & will also submit it
to you — I quite agree in the
limitation to a good II Class —
in the other subjects, both before
& after Terms, but do not think
it wise to make further restriction
than the 60% you propose —
It is very difficult to make
those who have not personal
experience of the troublesome
question of prizes, under-
stand that it must always
be more or less open to objections
& almost impossible to rewrite
