

Builey
GEOLOGICAL SURVEY OF CANADA

(Museum and Office, 76 S^e Gabriel Street) MONTREAL.

Fredericton Nov 13th 1880

J. W. Dawson Esq. &c.
Principal of Mc Gill University
My dear Sir

The advanced sheets of Geological Lecture Notes and other pamphlets which you were good enough to send me have been received and read with much interest. To those who, like myself, have to lecture upon geology, as well as to the ordinary student, the "Notes" cannot fail to be very serviceable while the references to Canadian localities and Canadian fossils will add to its use additional interest. I have long had in contemplation the preparation of some sort of hand-book of the geology

and Nat. Hist. of New Brunswick, but for the use of my classes here, but the uncertainty connected with everything concerning the geology of the Province has so far prevented my carrying the plan into execution - Perhaps I may accomplish something this winter -

I am glad to think that another meeting of the A. A. A. S. is in contemplation for Montreal - If it can be made only one quarter as successful as that of Boston, it would be well worth attending -

Please remember me kindly to Mrs. Dawson and the other members of your family circle, including Dr. and Mrs. Harrington - With renewed thanks for the pamphlets, I am

Sincerely yours
L. M. Bailey

and that that of New Brunswick, but
for the use of my former bar, but the
assessments, counted with nothing in
concerning the quality of the former bar as
for presented my carrying the plan into ex-
ecution. Perhaps I may accomplish
something this winter.

I am glad to think that the
meeting of the A. S. S. is in order.
I hope for the best. If it can be made
up on grounds as convenient as that
of Boston, it would be well worth effort.

Very
Dear
Remember me kindly to Mrs.
Barnes and the other members of your
family with which I am well
acquainted. With warm thanks for the
pamphlet, I am
Very
Yours
L. M. Child
