

GEOLOGICAL SOCIETY,

BURLINGTON HOUSE, W.

24 Nov. 1880

My dear Sir

I ought to have written
to you a fortnight ago on the
subject of your paper, but as I
have been very busy I hope you
will excuse the delay. - The
paper having been reported upon
once I thought before the
Council was re-referred & again
reported upon, which is the
cause of its having been held
on all through the recess. -

& the Council, having both
Referees' reports before them
found themselves unable
to decide upon the
publication of the paper
without having before them
the specimens from which
the illustrations ought to be
drawn. — Will you kindly
send me the specimens &
with them your supplementary
notes, which will enable
me to lay the whole
before the Council —

Many thanks for the copies
of your paper on Palaeozoic
Land Snails, all but one of
which I have already
disposed of. I think judiciously.

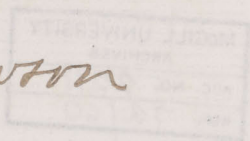

With kind regards

Believe me

Yours truly

H. S. Dallas

Principal Dawson
