Academy

J. L. Dawson L.P.,
Dear Sir

I am in search of a teacher of Modern Science to fill a professorship that will soon be vacant in Acadia College, Wolfville, N.S. A thorough scholar would be required, and one that has had some experience in teaching and a Baptist would be preferred, though the last particular would not be essential. The salary would be \$1000.00 per an; the facilities for teaching, good but not first class. If you could direct me to a person fitted for the position and likely to accept it, I would be very much obliged by your doing so. Knowing how well your kindness and interest in all educational matters to fear that you

will not excuse my troubling
you

I remain

Yours Most Respectfully

A. S. Munro.
