Dr. J. W. Dawson,

Dear Sir: Your kind favor of the 17th ult. was duly rec'd. and the matter forwarded to Albany. Will you please accept my sincere thanks for your kind attentions, for I have nothing else worth giving!

I hope ere long to begin a work on N.A. Unions, basing specific distinctions almost entirely upon the structure of the soft parts - Dr. Binney suggested, or planned the work for me and has promised all needful assistance.

Very respectfully

Your Obedt. Svt.
