Dr Dawson.

Dear Sir.

I have arrived home safe.
Now that you have been so kind to me I have
trespassed on your good-nature so far as to ask
you to order along a book for me. This Summer
I want to go prospecting in Cape Breton and
want a small book that will give me the
necessary information as to how to tell the metal
when I see it and how to analyze it - when found
it, in fact all necessary information. I supposed
you would know the best book better than I. If
you would order Dawson Bros. to send the book
with price marked to my address and I will
remit their price. I hope you will pardon my
troubling you but it was such a tempting opportunity
I could not resist. I kind regards to Mrs
and Miss Dawson

I remain
yours truly

Dear Sir

I have since your letter
I am glad to hear that you have been so kind to me & have
expressed an opinion in your good nature so far as to order
to order along a book for me. This summer
I have been so busy in Cape Breton and
I have not had time to write you that will give you the
necessary information as to how to tell the printer
when I see it and how to analyze it - when found
I in fact all necessary information. I suppose
you would know the best book better than I. If
you would order of either house. To send the book
I will price marked to my address and I will
remit their price. I hope you will pardon my
troubling you but it was such a beautiful opportunity
I have ordered 2 more
from my
Government
