

Yale College.

(Theological Department)  
New Haven, Conn.

March 2. 1881

Prof. J. N. Dawson, LL.D.

Dear Sir:

By the unanimous vote of the Theological Faculty, I am directed to invite you to deliver a course of from two to four lectures on some subject connected with the relation of theology to the Natural Sciences. The subject proposed is made thus broad in order to give room for any particular subject or form of exhibition most agreeable to yourself. Our time is restricted to March 19 - May 1, within which period we will arrange

matters to suit your convenience.  
The honor as the Germans  
call it, for such service is one  
hundred dollars a lecture.

Our invitation, at this par-  
ticular time is occasioned by  
Dr. Duggis failure, in consequence  
of illness, to continue his course  
on the Lyman Beecher foundation.

As our time is short,  
we must request the favor of  
a very early answer, which  
we sincerely trust will be  
in the affirmative.

With great respect,  
Very truly Yours  
(Prof) Geo. E. Day  
Sec.
