

M. Gill College.  
Montreal.

March 17/87

My dear Mr Sebley,

Send herewith  
nfs. of articles on Central  
Mental and Island <sup>life</sup>. I  
have made it as short  
as I could, but wished  
to give a clear and com-  
prehensive report of  
the many and im-  
portant questions raised  
by geographical distribution.

March 15/82

W. Hill College  
Lancaster

I think the article  
should excite some at-  
tention, as it places  
in new aspects, to  
many at least, the  
questions raised by  
Wallace & others and  
their relation to  
theories of evolution.

Sincerely yours

W. D. Owen

P.S. Please send a postal  
card acknowledging receipt  
of the m.s.

Mr. Peter Jones a Justice  
and a member of the  
U.S.
