1881

APR 24 1881
I should like to see ~~the~~ *beetles* very much
& would be glad to know the particulars of its
find - I have already a collection from
interglacial clay near Bronto, comprising 20
or more species and also over 1300 beetles
from peat - of what age cannot yet be told -
The interglacial species appear on Plate I of my
great volume in the Hayden Survey J. H.
