Sir

Information has reached me that candidates for the Inspectorship of Schools are to go before an Examining Committee, of which, I believe, you are a member.

Had I known this previously to despatching my former letter, I should not, of course, have written to the same purport.

Can you kindly inform me when the examination takes place, and also, if allowable, of the range of subjects, as a knowledge of this might save

me the trouble and expense
of a journey to Montreal

I am,

Sir

Yours very respectfully
Charles Williams Parker
