

Philadelphia,

May 12th, 1881

My dear Dr. Swann:

Allum me the
pleasure of sending you a couple of my
little books, as a slight token of my grate-
-ful appreciation of your eminent services
in our City. The Substances of both of them,
as you may see from the Prefaces, were
given in
obedient to the views of lectures in Association
Hall. I trust that you will not deem
it unduly vain in me if I direct
your special attention to the Appendix in
the volume entitled The Creation Book, in
which I venture to discuss the Archetype
Fossils and Fossils' Reproductions.

(Over)

Ever remembering with grateful delight
your visit to Philadelphia, and begging you
to assure Mrs. Dawson of my respectful
regards, I remain, my dear Madam,

Yours in Christian love and esteem,

Geo. D. Boardman.

Principal S. W. Dawson, L. L. D., F. R. S., &c.

Broadman
