

Murray

Little Gretio,
11th June, 1881.

My dear Principal,

I have brought
Mrs. Murray and the
children down here,
and intend returning
next week to be present
at the meeting of ex-
aminers on Friday,
the 17th. Meanwhile,
I shall be very happy
if I can do anything
for you and Mrs. Dawson

while I am here);
but do not trouble
yourself to write un-
less you have some
instructions.

I have got
through the greater
part of the examin-
ation work, and hope
we may have all the
reports before us on
Friday, so ~~—~~ that
we may finish off
on that day.

I may say, the
weather here is charm-
ing, though too dry
for vegetation.

Yours very truly,

Clark Murray

A decorative flourish consisting of two overlapping loops, one larger than the other, with a central crossing point.
