J. W. Dawson LL.D.

My dear Sir,

Allow me to  
thank you very much for  
your kindness in sending me  
your paper on Post Pleistocene Geology  
and the supplement to Academic  
Geology. They contain many

facts of great interest to me.  
I am now at work on the  
terminal moraine and the  
limit of ice action in  
Pennsylvania, and hope to

find some facts which  
will assist in the explan-  
ation of glacial phenomena.

With much respect

Very truly yours

Henry Carvill Lewis.
