

High School
June 9th 1881.

Dear Sir

I clipped the enclosed
scrap from the Cleveland "Leader"
of the 26th ult. I send it to you
as it seems to me to be on a
par with Dr Habin's remarks
concerning Eozoon and his
supposed plants from the flints
he found on the College Campus.

to which you directed the attention
of the Nat. Hist. Society over a year ago

Wm Dawson

Yours respectfully
D. S. Donald

Proof of Animal Life in Other Planets.

Two interesting problems which have long perplexed the scientific world appear to have been at last definitely solved by the eminent geologist, Dr. Hahn. These questions are, first, whether or not celestial bodies, other than the earth, belonging to our solar system are inhabited by animate beings, and, secondly, whether the meteoric stones from time to time cast upon the surface of this globe emanate from incandescent comets or from volcanic planets. That they at no time formed a part of the earth itself has been conclusively demonstrated.

Dr. Hahn has recently completed a series of investigations upon some of the huge meteoric stones that fell from the skies in Hungary during the summer of 1866. Thin laminae of these mysterious bodies, subjected to examination under a power microscope, have been found to contain coralline and spongy formations, and to reveal unmistakable traces of the lower forms of vegetation. All the organisms, animal and vegetable, discovered by Dr. Hahn in the delicate stone shavings he has thus dealt with indicate the condition of their parent world to be one of what is technically termed "primary formation." But the presence of water in that world is proved by the fact that the tiny petrified creatures revealed by the magic of the lens one and all belong to the so-called subaqueous classes of animals. They could not have existed in comets, at least if the assumption be correct that these are in a state of active combustion.—*London Telegraph*:

Merchants who suffer from dyspepsia, headache, constipation or biliousness can be cured by using Dr. Mettair's Headache and Dyspepsia Pill. Price 25 cents.

ing Works, corner Erie and C.

WANTED—FINISHERS—Four rubbers; good positions for first class men. Apply at once to **VINCENT, BARSTOW & CO.**, Water st. my18

WANTED—PAINTERS—Three good carriage painters and one striper, at 92 & 94 Champlain st. **WM. A. HEINSOHN'S** Carriage Shop. 442
