

Phila. 9-19-81

Dear Prof Dawson

Louis's received.

The bones of the skull
of Stegocephal skull
are labelled according
to customary rule.

I was within a
day or two of being
caught by the Apaches.
They killed some 25 peo-
ple near where I stop-
ped & then ambush-
ed the troops & citizens
who went to punish
them & killed & wound
ed most of them.

October 9-19-81

Dear Prof. Brewster

I have just received your letter of the 7th inst. in relation to the matter of the bird which was shot by the officers of the U.S. Fish Commission on the 2nd inst. I am sorry to hear that the bird was shot and I am sure that you will be glad to hear that it was a male. I have no doubt that the bird was a male and I am sure that you will be glad to hear that it was a male. I have no doubt that the bird was a male and I am sure that you will be glad to hear that it was a male.

We lost our mining super-
intendent.

The region is now
-conic to for the min-
er & the Naturalist.
Very truly yours

E. D. Cope
