

Collonge, pres Vevey

Canton de Vaud, Suisse

Sept 25 1881.

J. E. Marshall Hall
Hydrachia

My son is writing at the same time in hopes that you may be able to assist his views. He is a good son, industrious gentlemanly and deserves success.

I should be very glad if you are still head of the Survey that he should serve under one whose Acadian Geology he has given me so much pleasure and through instruction.

It is a gentlemanly and an
useful position to hold & I
am most anxious that my
son (the second of three)
should lead an active life
where independence and
ingenuity of resource would
be sure to be developed. I
most earnestly beg your kind
assistance and advice.

Very truly yours

Marshall Hall
