

Quebec. 11th Oct. 1881.

Dr. Dawson,
McGill College
Montreal.

Dear Dr. Dawson,

I have been
requested by the Lecture
Committee of the Quebec
Young Men's Christian
Association to invite
you to lecture for us
some (Tuesday) ^{if possible} evening this
winter.

Will you kindly let me know if you
can come & break your tour
should be as early as possible.
We have mighty obstacles in our way
down here but Shurt our faith
will not fail us for concerning that
has been accomplished he can only
say "That he the God wrought".

Yours
Dear Garrison
Sincerely Yours
Wm. W. Ch.

A member of the Committee suggested that you had occasionally to come to Quebec on Educational matters & you might perhaps work ~~as~~ as to give us a lecture on one of your visits. In any case we want if possible to get an evening from you. We are determined (D.V.) to finish our building this year & any funds we raise by lectures or otherwise will be devoted to that purpose.

Chas. Lusk
