My dear Dr. Dawson

I thank you for  
the synopsis of your lectures  
rec'd some days since as  
announced in yours of the  
12th. — I am looking  
with much interest for  
a report of the doings at  
Bologna — which may  
make all further  
consultation needless.

My dear Mr. Brown  
I thank you for  
the fragments of your lecture  
and have been half an hour  
in your room and in your  
15th. - I am looking  
with much interest for  
a report of the same at  
Koblenz - what may  
be made all further  
consultation possible.  
Yours

a single name for

The whole Lower Silurian  
- and that Cambrian,  
as recently so used in  
England. If two are  
put in, the divisions  
are too unimportant  
to stand on equal terms  
with Devonian, Carbonif.  
etc. -

I cannot write  
more now, on account  
of engagements -

Very truly yours
