

Albany, Dec. 32 1881

Dear Prof. Danson

Some time ago you gave
~~me~~ a small piece of Chaetetes
compacta Billings which I have
lost or mislaid - I don't think
lost, but I cannot find it just
now, and I have had some
specimens sent me, from
a locality in N.Y., under the
same name.

Can you conveniently
spare me a specimen from
which I might cut a few thin
slices for comparison,
if convenient & so you
will greatly oblige yours
Very sincerely
James Hall
