

Beloit, Wis. Dec. 15, 1887

Dear Sir:

I am engaged in compiling a list of publications relating to Quaternary geology, with the ultimate purpose of publication. I desire to make the list as complete as practicable in relation to all writers on the subject. I therefore take the liberty of asking if you will do me the favor of sending me a list of each of your publications as may relate to the subject, with full title, date and volume of publication &c. Noteworthy discussions of the subject though included with other matter will be entitled to admission and are desired.

Very Respectfully,

J. C. Chamberlin,  
S.

J. N. Darnon M.D.S.  
Geological Survey,  
Montreal,  
Canada.
