

Pictou Academy,
Dec. 30th, 1887,

Dear Sir,

I have to thank you
for your kindness in sending me
"The Chain of life in Geological
Time". I have all your works,
I think, from your "Headian Geology"
& this present. I have found this
last of very great assistance in
preparing a Course of lectures
on "Elementary Geology" for our
students in the Academy. I have
then to thank you for beneficence
as well as for the honor of being
remembered by you.

I may also say, that
a few weeks ago, we received a
parcel of books from the Smith-
sonian Institute.

I am,

Yours very truly
