

M^cGill College.
Montreal.

July 23/82

My dear Sir,

In accordance with
my letter of Dec 14th, I would
now propose as the titles
of the lectures to be de-
livered in May,

1. Paleontology as related
to Evolution & Creation
2. Manifestations of Mind
in Nature.
3. The Natural in relation
to the Spiritual

The whole might be

included under the title

Relations of Science to
Modern ~~From~~ Speculations and
~~Religion~~
Beliefs.

I should like if possible
to deliver the lectures on
the 9th, 10th & 11th
of May, if this will
be suitable to you

The hour is immaterial
to me. I will leave
here on Monday the 8th,

and would if weeping
remain me till Saturs
day, the 13th.

Please let me know
at your convenience of this
will suit. My reason
for placing the lectures
on consecutive days is
to avoid several journeys
as my engagements are
so scattered through the
month of May that

Letter to Prof Day
July 23/82

unless the lectures are
placed close together I
would require to make
two or three journeys,
involving much loss of
time.

Sincerely yours

J. W. Dawson

Rev Prof. Day
