Dr Dawson

Dear Sir

Yours recd. All  
right. Please send the cuts  
the very swiftest minute  
possible. The printers are  
waiting, as the cuts go into  
the pages. Drive the man  
that makes them - for they  
are slow. We want to get  
the book out this month.

Yours Truly  
Bl Griffith

We don't much like the Photographic  
ic process. Still they may do if very  
great care is taken by the maker.
