

GEOLOGICAL & NATURAL HISTORY SURVEY.

Alfred R. C. Selwyn LL.D., F.R.S., Director.

MUSEUM & OFFICE, SUSSEX ST. OTTAWA.

Feb 27<sup>th</sup> 1882

Dear Sir

I have superintended the taking of the plaster cast of *Surospus unguifer* tracks for your museum. It is as good a cast as can possibly be taken.

After it is quite dry, I would recommend you to have a very thin coat of white wash put on and then have it framed similar to those in our museum. As soon as the slab is dry (say about the end of this week) I will have it packed and sent on.

If there is any thing else I can do for you, please let

we know

Yours truly  
Thos. Weston
