

Pagle Lake
Pac. Portage
Mar 1. 82

Dear Sir

I suppose you have been
wondering how i have been
getting along in the west
as far as i have been doing
pretty well but am getting
tired of it i have been
working on the G P R
railway since i came here
the work is pretty nearly
finished east of unshay
as far as the under way
and i was thinking of returning
home when it is finished
as i do not like the Prairie
and i was thinking from
the accounts that father

sends me about so many
new buildings going up about
the college that you might
find steady employment for me
if i should return about
the first of May or June which
i think i will father tells me
that he has been better ^{the}₅
winter in health than for a
number of years Dear Sir we
have had splended this last month
and old letters say it has been
something unusual in this country
at this time of the year Dear
Sir hoping you will pardon me
for troubling on your valuable time
i remain

yours Respectfully
H. H. Berlout
