do, do, do.
Montreal

Dear Sir, —

I take the liberty
of sending you a brief
account of my efforts to
enlighten the public
mind and stimulate
the public conscience
on this terrible evil.

In truth - it has become
such a prevalent evil
and the consequences are
so exceedingly deplorable

that the State and the
Church will learn to
assume the duty ~~of~~
now performed by individuals

The "Young Men's Christian
Association" of New York
have issued a tract
upon the subject - which
is being widely distributed
in the States. Could
not something of the kind
be done here?

With just respect
Yrs very truly
