

GEOLOGICAL & NATURAL HISTORY SURVEY.

Alfred R. C. Selwyn B.L.D., F.R.S., Director.

MUSEUM & OFFICE, SUSSEX ST. OTTAWA.

13<sup>th</sup> March 1882

My dear Sir,

I send you enclosed, agreeably to your request, tracings of the four Plates of Devonian Plants. There will doubtless be space enough for any additional figures you may have. Please indicate where you would like them inserted on the Plates. The Artist is ready to lithograph them at once. We have not been able to find the specimens of the strobiles of *Arthroostigma*, collected by Weston at Campbellton. Perhaps you could send me one of your specimens, if you wish it drawn. I will take care to make the corrections in the original drawings you pointed out before they are transferred to the stone.

To  
Dr. J. W. Dawson,  
C.M.S., F.R.S.,  
tc

I am,  
My dear Sir,  
Yours truly,  
A. H. Foord.
