Dear Dr Dawson

Many thanks for your
kind attention in forwarding
me your tractate on education
I shall read it with great
pleasure, till now I have
only had time to read the
introductory remarks.

I dare say your son
may have mentioned a
project I am fostering
to bring out boys from

England to educate here
and try to provide them
with situations when they
leave school.

At your leisure I
should be glad if I could
trespass on your time and
advice.

With best regards

Sincerely Yours

Hy J. G. Gall.

It is your business I
should be glad if I could
traverse on your line and

With best regards
Sincerely yours
