

Mrs. Mene

9 Prince of Wales Terrace
March 27th 1882

Dear Dr. Dantson

The copy of the following
Resolution should have been
forwarded to you earlier
I however explained the matter

in a former note —

Moved by Mr. Greenhill

Seconded by Mr. Lewis —

"That Dr. Dantson's most generous
offer of giving the Association
the benefit of the exclusive
privilege of Lectures at the

Redpath Museum, is most
gratefully accepted - That
the Committee desire to
leave to him the selection
of particular subjects for the
three years course of lectures -
& that the Secretary be requested
to convey the resolution to
Dr. Dawson -

At the adjourned meeting
after the above resolution
was passed - the outline
of the course for three years
was laid before the Committee
they of course followed

No suggestions given & decided on
Zoology - "Invertebrate Animals" - for
next session - I suppose the synopsis given
is all that is needed for the programme
requiring only the name of text book -
in addition - Believe me

Yours sincerely
Mary Newman
Secy.
