

GEOLOGICAL & NATURAL HISTORY SURVEY.

Alfred R. C. Selwyn L.L.D., F.R.S., Director.

MUSEUM & OFFICE, SUSSEX ST OTTAWA.

May 8th 1882

My dear Sir,

Referring to the contents
of your postal card of Saturday
in connection with the gentleman
interested in tree-planting in the
western states, I regret that on
writing to your son, I destroyed
the gentleman's card containing
his name and address.

Possibly when Dr. Joyce returns
he may be able to recall his
name and address.

In my letter I merely followed

the instructions received from
Dr. Allwyn, and I supposed
the matter was finally disposed
of. I sent last week a number
of circulars containing the names
of our local committee in
connection with the Am. Assocⁿ
for advancement of Science
I asked Prof. Remy to dispose
of them as he thinks best.

Very truly yours

J. H. Brown
