

London

10th May 1882

My dear Sir

I have some thoughts of running over with my wife to America for a brief visit during the long vacation. As I have heard that a geological Congress will be held at Montreal during that time I should much like to be present, if I could so arrange it - Will you mind giving me the exact date of that meeting so that I might time my departure from England accordingly. After visiting Montreal, I should pass on to New York

and to home again

I am my dear Sir
Yours very truly

(the Revd Prof.) Thos = Wiltshire
