

Bourmont

Hawa

30th May 1882

Dear Dr. Dawson,

It is a good idea to have the proceedings of the P.S.C. published immediately in pamphlet form. I am quite ready to assume my share of the responsibility of the expense of a fine large issue for members & others. W.C. no doubt will like to have a number of copies, on best paper possible.

I will prepare my matter & have it ready for you when you wish it.

You are very kind to
remember my slight indisposition.
The fact is, I was a little run
down by the session, as
I had no assistance at the
table with anything. The doctor
is making me take Quinine
four times a day, & as soon as
I can run off I will. But enough
about myself.

Ah lunch with Col. ^{yesterday} Beekman
he spoke about the Address
or Memorial to the Queen respecting
the title of the Society. Get
up the body of the Address,
& I will ^{prepare} copy it in proper
official form by my officers

Who attend to such duties
for Parliament.

I suppose you will be
too busy in getting out
your pamphlet. Let me know
when you want report
of proceedings. Send me telegram
without paying for it.
Present Mrs Bowring's
compliments to Mrs & Miss
Dawson, whom we hope
to see something of at
another time

Yours sincerely,
J. Bowring
