

Princeton Review.

47 Park Avenue, New York.

June 9. 82

My dear A. Dawson

I have two favours to  
ask. 1. Will you send me  
three or four programs of the  
next meeting of the Assoc -  
for adv. of Science -

2. Will you send me  
a good photograph of yourself.  
(I am making up a collection  
of some of our most eminent  
contributors and I cannot  
find any photograph of yourself.)

In the course of a week  
I shall be able to forward  
a copy of our July issue  
which I think makes a  
very interesting number.

Yours

Very respectfully

Josiah W. Libbey
