

Dana
June 11
New Haven. June 11 - 1852

My dear Dr. Dawson

I should have acknowledged
your letter before but waited for the
desired tracing, supposing that the
artist would finish it soon promptly.

of the figures in the plate, 9, and 11
from Astoria, Oregon, ^(Museum, Canada) and 10

from "near the mouth of the Fraser R."

this last specimen was not collected
by Prof. D. - I am afraid that this
will be of ~~no~~ service to you except
in a negative way.

I look forward with much
pleasure to being in Montreal in August,
and thank you very sincerely for your
friendly words - Truly yours

C. S. Dana

11-11-11

My dear Mr. Brewster

I think you are referring
your letter before but wish to
thank you very much for the
information which is very valuable

If the figures in the list of 11
are from the same source - and 10

from the same source of the form R
the list therein is not correct
of the list of 11 - I have found that the
list of 11 is not correct to the extent

of a single way.
I had found with some
reference to the list in question
and that you are only of the
list of 11 - I am pleased
Yours truly
J. B. Baird
