July 18 Philad. July 27th

Principal Sawton:—

Dear Sir:—

I am in-
formed by Prof. Harrington
that the amount of room
originally assigned me will
have to be cut down some-
what; I infer from his
letter considerably. I regret
this very much as I desire
to make as good a dis-
play as at Cincinnati
last year where I rec'd
the highest award for
"best display of showy

and rare Minerals."

Please inform me as soon as convenient to you exactly the amount of case space I may occupy, as I shall have to unpack what is already packed up in order to ship by freight so that they may reach Montreal in time for the Exhibition. I will also be much obliged if you will inform me who has promised to exhibit - at Montreal besides myself.

I shall publish the Circular of the Local Com. and extracts from your Educational address in my Aug. Leisure Hour and a full acct. of the meeting in the Sept. Number. Yours Res. N.E. Foote.
