Dr. J. W. Dawson

Dear Sir -

I did not expect a private reply to my suggestion for an explanation to the graduates. The only reason why I was the one to make the suggestion was a wish to go to headquarters. The enclosed report will show that the public as well as myself were laboring under a mistake. It is a pity in any case that the Museum Committee should "have taken advantage" of a private entertainment as an opportunity to occasion for the formal opening. The matter is therefore to be credited to their want of judgment. With thanks for kind reply - I remain

Yours respectfully
