Sept. 8<sup>th</sup>, 1882.

To Principal Dawson C. M. G., &c. &c.  
Dear Sir,

On reference to our books it appears that the number of copies printed by the Survey of the first part of "The Fossil Plants of the Devonian & Upper Silurian Formations of Canada" was 800 & not 2500 as stated by Mr. White to you.

I have already written to Mr. White to that effect. So far, we have never printed more than 1000 copies of any palaeontological publication.

Faithfully yours,  
J. F. Whiteaves.
