Dear Sir,

I have been most  
flattered Saturday on the  
reception of your book  
"The Story of the earth &  
man".

I have already read  
several of your works  
with pleasure.

But now happily, that I  
have made your acquain-  
tance I will read that  
book with much more  
interest.

To Principal

Montreal.

Fiel

Feel assured, that I  
will always be proud, to  
keep it as a remembrance  
of a Canadian who oc-  
cupies such a high posi-  
tion amongst scientific  
men of this century.

Hoping to see you  
again, please accept  
my best thanks & believe  
me, most sincerely.

Yours very  
devoted
