My dear Sir

Last winter I ventured  
to prefer a request for a Lecture  
in connection with our Church  
Associations - Various reasons  
alluded to, made it then  
impossible but if I remem-  
ber rightly such a desired  
object was not entirely  
denied - We are now  
arranging for this year's  
Programme and it would  
be the attainment of our  
highest wish if within

Your power to give us  
promise - name a subject  
and fix a date -

Centrally situated in a  
portion of country everywhere  
connected with your City  
by R.R. and forming  
a considerable field for  
the work of your University  
(as I before stated I think,  
your compliance with our  
request might not only  
benefit signally the interests  
of your life-work in this  
Section, but also more  
directly crown your

arrivals within the bounds of your work

arrivals within the range of humanity  
privileges - we must therefore secure  
our request and will make our  
arrangements harmonious with your  
wishes if you kindly intimate subject  
and date -

Believe me

With all respect

Sincerely yours

A. Hammond Boncker
